Apply RoyalWall Hybrid Adhesive to the back of the Plank

Smooth Surface

Use RoyalWall Power Tape

Smooth Surface

Rough Surface

Peel the backing from the

Power Tape

Position the plank along your line

Press the planks into place

How to remove the Tape

Put a hair dryer on low heat and point it at the tape, holding it a few inches away. Move the hairdryer over the length of the tape evenly.

The heat will loosen the adhesive.

Slowly peel off the tape.

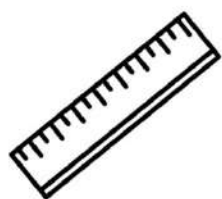

When the tape is gone, scrub off the sticky residue that remains with a soapy cloth.

How to install the Grass Panels

Let the grass panels acclimatize for 24 Hours.

Tools needed:

Metal Ruler

Utility Knife

Pencil

Make sure back of the grass panel and wall are clean and dry
